SUMMARY

I am pursuing Bachelor's of Engineering in Computer science and design at SNS COLLEGE OF TECHNOLOGY,COIMBATORE.I am strong communication, problem solving challenges, debugging ,critical thinking.I had some mini projects in cooperated by strong leadership and teamwork.

TECHNICAL SKILLS

Python	Debugging	Problem solving	MS Excel
Java(basics)	Leadership	Communication	Agentic AI

CERTIFICATIONS

IBM SKILL BUILD17,Sept,2025

- Completed the Enterprise Design Thinking Practitioner certification from IBM SkillsBuild, gaining knowledge in user-centered problem solving, design thinking principles, and collaborative innovation.
- Learned to apply empathy, ideation, prototyping, and iterative testing methods to create effective and scalable business solutions. Developed skills in teamwork, agile mindset, and delivering user-focused digital experiences.

CURSA14,Feb,2026

- Completed Artificial Intelligence with Python (CS50) certification, gaining hands-on experience in machine learning, search algorithms, and AI development using Python.
- Machine learning concepts, search algorithms, optimization, neural networks, and AI problem-solving using Python.

EDUCATION2025 - 2026

Higher Secondary EducationMarch,2025

Education at SMSM Higher Secondary School

- Developed foundational knowledge in computer programming, including basics of Python and C++.
- Understanding of programming logic, problem-solving concepts, and core coding principles, building a strong base for further studies in computer science and software development.

Bachelor's of Engineering2025-2029

Education at SNS Colege of technology

- Currently pursuing a B.E. in Computer Science and Design Engineering
- Developing skills in Python programming, Java, and Web Development.
- Gained foundational knowledge in software development, problem-solving, and application design through academic learning and self-study.

- Languages:** English, Tamil(Native or bilingual proficiency)
- Certifications:**Design thinking in IBM skill build, java in skillected, AI in Python by Cursa
